

Life is not the way they teach you in their schools  
Life is not the way they dictate with their rules  
The world is not the way they tell you it will be

Life is not the way you think it oughta be  
Until this battle's won, and everyone is free

Life is not the way you see it on a screen  
Life is not the way they sell in magazines  
The world is not the way they're telling you and me

Life is not the way I think that it could be  
If we'd just feed ourselves and not bureaucracy

Life is not the way they show you on the news  
Life is not the way they try to make you choose  
The world is not the way they're selling you and me

Life is not the way I think it oughta be  
We're living in a land of slaves and corporate greed

(Instrumental)

Life is not the way I thought that it would be  
Living in a land of real democracy  
Life is not the way it really oughta be  
We're living in a land of fear with slaves who think they're free  
Slaves who think they're free  
Slaves who think they're free
